

EVERBUILD FOREVER WHITE GROUT REVIVER

Colour	Product Code	Pack Size	Box Qty
Arctic White	FWREVIVE	200ML	12

Product Description

With Mould Shield[®] one of the world's leading anti-bacterial solutions integrated into the manufacturing process, Forever White Grout Reviver is guaranteed to stop mould, mildew and bacterial growth. Mould Shield[®] actively prevents the growth of bacteria, mildew and black mould that are commonly found in areas of high humidity.

Forever White Grout Reviver is independently tested and certified by a NAMMAS accredited microbiological laboratory to show no mould growth after more than 10 Years simulated ageing. Copies of test data are available upon request.

Forever White Grout Reviver dries to an extra brilliant white finish.

NO MOULD GUARANTEE

If Forever White Grout Reviver discolors or stains due to mould growth within 10 years of application simply return pack or receipt of purchase to Everbuild and we will refund you purchase and postage costs.

*** CAUTION:** This guarantee is only valid providing regular cleaning has been carried out, Mould Shield[®] helps prevent the growth of mould, mildew and bacteria that can stain and degrade grout, however it is not a substitute for regular cleaning as excessive deposits of soap can cause secondary mould growth.

Nothing in this statement does or will affect your statutory rights.

Benefits

- Excellent water resistance.
- Dries brilliant white.
- Contains Mould Shield[®] - prevents mould growth.
- Ready mixed formula - no mixing, no mess. Apply straight from the tube.

Areas for Use

- Kitchen/Bathroom walls.
- Shower areas.
- Wet Rooms.

Limitations

- Do not use over epoxy grout..
- As the manufacturer cannot know all the uses its products may be put to, it is the user's responsibility to determine suitability for use. If in doubt, contact Technical Services department for advice or refer to Technical Data Sheet. In all circumstances, the manufacturer's liability is limited to the value of the manufacturer's product purchased

Application

Surfaces must be clean, dry; dust free and sound. Remove any old mould with EVERBUILD MOSS AND MOULD REMOVER prior to application and allow to dry. Replace any damaged, loose or cracked grouting by raking and re-grouting with FOREVER WHITE TILE ADHESIVE AND GROUT; then allowing to dry. Certain tiles (e.g. non glazed; metallic; textured or hand painted) may not be compatible with this product. Always test a small inconspicuous area for compatibility prior to full scale application.

Remove cap and squeeze the Grout Reviver tube until product is expelled. Continue squeezing and apply to grout lines in a zig zag motion ensuring even coverage and working well into existing grout. Allow to dry for 3-4 hours then remove any excess product from tiles with a damp cloth or sponge. Any residue still remaining on tiles can easily be removed by moistening; leaving for 15 minutes then removing as above.

A second application may be necessary for badly stained areas; after first coat is dry (3-4hours). After removal of residues; polish tiles with a clean dry cloth.

Avoid wetting tiles for 24 hours after application (longer in cold poorly ventilated/humid conditions).

Rinse applicator sponge in warm water after use and replace cap to enable product to be used again. Wash hands with warm water and soap after use.

Health & Safety

Consult MSDS for full list of hazards.

Storage

Store at moderate temperatures. PROTECT FROM FROST.

Shelf Life

Minimum 12 months when stored according to manufacturer's instructions.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product. Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.
